The State of Mississippi:

To Henry W. Olson:—You are commanded to appear before the Chancer, who sold it at a price which admitted of no profit but he was public-cocks, in said State on the bounds for the bounds for the bounds for the bounds for the bounds of the bounds of the bounds for the bounds of the

CHRONICLE OF THE BAY ST. deserving. The R. W. Webb School

The public school system of president, as a cost including the Bay St. Louis reached no tangible price of the los, of \$4,130. John shape nor did it become a permanent success until 1893, when John V. Mayor G. G. Gardebled, builder Mr. Toulme, now deceased, mayor of the Gardebled ook much interest in this city, decided upon the erection of public work, but died before his a school buloing for the city by the ed. This contract was almost a lation did not meet wih the public approval, as was to have been expected. At the very outset he was handicapped by dverse public sentiment and principally the lack of adequate funds but he knew he was right and that he was huilding a priceless heritage for the future. He summoned a-few of his friends, leading and progressive citizens, together representing the best thought and active element. He was given an ottentive hearing and so impressed were his hearers with what he proposed, and expressing themselves accordingly. that he proceeded with his uphill work; backed by their moral support

but mainly by his firm conviction in The lack of money was an obstacle. but Mayor Toulme did not allow it to this country during the war. With the skill of a mancier, however, he used the city's money available from the city's different funds in a manner whereby these would not suffer, borrowing as it were; and for the bai-

that on May 1, 1893 the contract for awarded to E. B. Kirk, at a cost of \$3,800. The building, needless to say, soon "filled a long-felt want" and every etizen pointed to it with pride. A few years later this beautibecme iadequate and a two-story annext, with the most modern sanitary equipment, was built in the rear of the main building. This was accomplished under the administration of Mayor Gaston G. Gardebled, at a

BOND ISSUE IS BIG PROBLEM

Best Means to Pull Counties Gut of Land of Mud-Make All Improve ments Permanent.

The biggest single issue before the people today is good roads; biggest not alone of itself, but biggest because the prompt and satisfactory solution of a permanent road system in every state will help to solve a halfdozen fundamental problems and in directly affect for good, as well as in dollars and cents, almost every phase of farm, social and industrial life in the state. We cannot expect to have a real system of roads unless it is Calotab at bedtime with a swallow of based on large units and this is best accomplished by accepting the county and state basis with a few experienced and responsible men in charge in each case. We must have roads that begin and end somewhere.

Many counties are presenting to the taxpayers the question of a bond issue for the improvement of their highways. The bond issue for a public improvement should be governed by the same considerations which govern a bond issue by any business organization. When a manufacturing concern issues bonds, the money raised is placed in permanent improvements in the plant which will last far beyond the life of the bonds, or else no investor would purchase the securities. Bonds, for municipal purposes or for public improvements are not always subjected to this acid test, and instances are numerous in this country where bonds for twenty years have been issued for the construction of public roads, where the type of roads built with the proceeds of the bond issue could not possibly last more than ten years, and even then expensive maintenance is continually necessary.

during the life of such a bond issue the original road has been worn out and rebuilt with a different material, and with the proceeds of subsequent bond issues as many as three times. and still the original bonds are a liability on the community. Bond Issues for better roads are the best means to pull countles out of the Land of Mud. But it must be certain that the road improvements will last the life of the bonds. This can be assured by securing expert and unpreju-

In some instances history shows that

kind of roads for the soil. Making Necessary Repairs on Macadam Road.

a concrete bridge with one year's tax money, he has made a Christmay present of that bridge to posterity for the next one hundred years. He says that thirty-year paved roads are impossible because \$10,000 per mile is too much to pay out of one year's tax money, and it has not occurred to him that there will still be taxpayers when he is dead and gone, who will be using that road, and by rights should have to pay some of it.-Wallace's Farmer.

COST OF VARIOUS HIGHWAYS

Macadam Road is Most Expensive, But When Built is Satisfactory and Permanent.

Dirt roads are ordinarily surfaced with sand, mixed with clay or with gravel, or brick, or crushed stone, concrete or other like material. The gravel road will cost from \$1,500 to \$3,500 a mile—the difference in cost depending upon the accessibility of gravel. The macadamized road costs from \$2,-000 to \$10,000 per mile. It is the most expensive, but when well built is both

Essential Foundation. Permanent foundations, having uniform bearing quality, are essential to all types of engineering structures. Roads are no exception.

Try Draining Wet Place. Did you ever try draining that awful wet place in the road? Try-it some time—once will be enough.

Don't Build on Paper. If you want that road you're going to build to be of any value, build it on the ground—not on paper.

Deprived of Social Benefits. People who are forced to live in bad road districts are deprived of easy social communication, and are more or less strangers to their neighbors and the great outside world.

Trapnest is Essential. It is difficult to make progress in the improvement of egg records without the use of the trannest.

HURT REAL ESTATE VALUES Urgent Reason Given by Practical Men

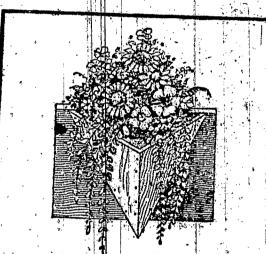

for the Elimination of Unsight .ly Billboards.

A step, and one of considerable importance, toward the exit, at least in American billboard was taken in Atlantic City when the National Assoclation of Real Estate boards agreed in condemnation of this form of outdoor advertising, without a dissenting voice among the 2,000 delegates. This sweeping agreement followed an address by the president of the Chicago Municipal Art league, in which he declared_that the advertising billboard is now generally recognized as one of the leading nuisances in the home life. of American cities. The case against "those purveyors of information to an unwilling public that line so many of our public streets" has ceased to be one of esthetics and become a matter of practical business concern to a large group of vely practical men because they lower real estate values. And with the campaign against them rein forced by real estate dealers all over the country the billboard may well tremble on its often unstable foundations for its future existence. Christian Science Monitor.

FLOWER POCKETS ON FENCE

Corner of Old Box, With Proper Treat. ment May Be Utilized for the Purpose.

A wall pocket to hold a plant can be easily made dut of the corner of an oldoox. It consists of three triangular pieces two for the sides and one for the back. The sides are of course.

Several of The term "grass widow" very them nailed to a fence, and each filled with a growing plant, present a very pleasing appearance, and as four pockets may be made from each box thereis no trouble in matching them. In cutting the box the saw should be held at an angle of not more than thirty degrees to the vertical.—Mrs. Grace E. Willey, Concord, N. H., in Popular, Mechanics Magazine.

> Teach Proper Housing. Cincinnati is said to be doing more to solve the problem of the careless tenant than any other city in the United States. This is being carried on through a better housing league.

The Ohio city put into effect the first systematic plan for teaching housing work in various districts of the city. Each has a district small enough so that she can get to all the houses in her territory frequently. She ge's in touch with the owner, explains the work, seeks his co-operation, and asks in return for her services that he make reasonable repairs that she may

recommend. It is not claimed by the league that the visiting housekeepers will revolutionize conditions in a day or a year. What is being accomplished it is stated, is so satisfactory that the league hopes to gradually extend the work so that it may reach every tenan in the city.

City Planning Proposed The city of Auburn, Maine, is to try the city planning method. Last fall It contracted with a park building as sociation of Chicago, to draft a plan for the city, and it will be fendy in October, It will be accompanied by a comprehensive report of its constructor directions for Headache Colds flon and suggestions relative to its Pain, Neuralgia, Lumbago, and Rheu xecution. The cost of the plan is \$3,600, and it provides for the greatest possible development in the next 50 years. It is being adopted by Auburn in preference to haphazard methods followed by many cities.

Town Plants 900 Trees. The city of New Bedford, Mass., set out 900 trees in spring, and the city claims it almost holds the record-for the number of trees it possesses in proportion to street mileage, according to a report of the American Forestry association of Washington, whose campaign for memorial trees for soldiers is nation-wide and which is registering all such trees.

Town Arbertums. In time wayside arborefums might become national or municipal possessions of very great value, for with intelligent forestry handling the trees could be cut down at the proper time, with replacements so arranged that the appearance of the shaded avenues. would not be appreciably affected.

Explosion of Mt. Poles.
The exception beggin May 7, 1902. and St. Plerre was destroyed on May 9. The second eruption occurred on May 28. Other outbreaks occurred dubing the year, particularly in the latter parties of Automa and early parties see.

A cold in the summer time, as everybody knows, is the hardest kind of a cold to get rid of. The best and quick-est way is to go to bed and stay there if you can, with a boutle of "Boschee's Syrup" bandy to insure a good night's rest, free from coughing, with easy exbectoration in the morning.

But if you can't stay to bed you must keep out of draughts, avoid sudden changes; eat specingly of simple food and take occasional doses of Dosesce's Syrup, which you can buy at any store where medicine is sold a safe and off the constitution is sold a safe and off the constitution is seen a safe in the constitution of the constitution is seen a safe in the constitution in the constitution is seen a safe in the constitution in the constitution is seen as a safe in the constitution in the con

Scores of Women

in homes, stores offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements. hoping against hope that they will soon feel better but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

III BAMEIII KARALEILE

Here is a Notable Example Joplin, Missouri. - "I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the

Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial."

-Mrs. TIMOTHY GRANEY. 426 Connor Ave., Joplin, Mo.

And Another Chicago, Illinois - 'I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter. Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

an absence of several weeks, returned home Sunday from a trip of unusual. interest. Leaving here they spent a week at Pack Grove Inn. N. C. and they journeyed to New York, Mon-

night from quite a trip, on a visit to his son, Edward, at El Paso, Texas and down into old Mexico. The trip was a most interesting one, feports Mr. Bordages, There was so much to see along the route and at the different cities where he stopped. The oil fields are alive with animation, and as a result there is much activity in all lines of endeavor. While away he became interested in one of the oil propositions and from indications things ahead look pretty good. He expects to make a return visit in the immediate future.

State Board of Education in such manner as to equalize school terms throughout the State."

Mr. Powers, of the State University of Mississippi, calls our attenton to the fact that Section 206 allows the present appropriation to stand, and to be distributed exactly as here-tofore, without reference to a local tax that a county may levy in support of schools. This amendment makes it possible with an additional appropriation of approximately one dollar per capita of school population to equalize the school term in the various countries.

tions things ahead look pretty good. He expects to make a return visit in the immediate future.

—Through purchase from Karl Schneider, Charles A. Breath has become the owner of the lire vulcanization of 1914 tried to remedy this, ing plant which Mr. Schneider added to his garage last year, the Haywood steam system, one of the best and recognized of the country. Mr. Breath has taken active possession of the new busines and placed it in working charge of a capable and experienced man, one who is expert in his line, and whose splendid workmanship and skill in such inatters is a guarantee in itself. Mr. Schneider sold the plant for the reason that his automobile business demanded all of his time and he was imposed to handle all of the work that case his way. Under the new ownership she plant will be kept going to its full capacity and the public will find it a many of the case and capable will be kept going to its full capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the public will find it a many of the case and capacity and the capacit

BILOXÍ PLANS IMPROVEMENT—WHY NOT BAY ST. LOUIS?

Business men and property owners have often fogether on a project for hard-sur-cing the streets of the city and there is fair chance for success of a proposal to ont a bond issue of \$150,00, through which to raise money for the purpose. While the thirty-three miles of s that repairs are costing the city an average expenditure of about \$150,000 in hard-surfacing the main streets and arteries to cut the same time allow greater attention to

This looks like a truly progressive move-ment and one that should bring credit to Biloxi.—Mobile Daily Register. It has long been proven by experience that the costliest street or roadway is the shell road. When in condition it serves well. But the shell road deteriorates with wear and time. The elements are against it. Water washes and cuts it away. In use it wears and unless constantly attended to will not stand traffic. Thus in the ong run, it is most expensive, and that has been best proven in Bay St. Louis. The official records of the city of Bay St. Louis show that in the past twenty years a gigantic fortune has been spent in the purchase of shells for repair work. This has been

a direct cause of high taxation. Biloxi might be commended for her action in "getting busy" towards procuring permanent roads, but there is plenty of room for censure from the fact that so progressive a city might have accomplished this long ere this. Biloxi's credit is Biloxi's shame. This applies to Bay St. Louis. But no time like the present and the immediate future to apply the remedy. We hope the day is not far distant when Bay St. Louis streets will be made permanent, as well as the main county roads, and this hope is expressed in the interest of true economy.
